
C01–C07: seven identities in six atlas states. P-S13 / P-N01: verified-parent controls.
0 = tested, no endpoint confirmation; 1 = confirmed; — / hatching = ineligible, never zero.
Candidate endpoint: stable novel word. Control endpoint: original composite identity.

EXP-fate-calibration-001 · 28 candidate + 8 control delay observations · finite panel; no independent-history inference
